

# Table Designs

## tbl\_applicattion

Column	Type	Null	Default	Comments
app_id	int(5)	No		This field contains the id of the application
reg_id	int(5)	No		this field is referenced from the table tbl_login
app_for	varchar(50)	No		this field contains the certificate the user applied for
status	int(5)	No	0	This field contains the status of the application
date	datetime	No	CURRENT_TIMESTAMP	This field contains the date of creation of the application

## tbl\_case

Column	Type	Null	Default	Comments
case_id	int(5)	No		This field contains the id of the case
cid	int(5)	Yes	NULL	this field is referenced from the table tbl_complaints
date	datetime	No	CURRENT_TIMESTAMP	this field contains the date of creation of the case
status	int(5)	No	0	this field contains the status of the case
officer	varchar(50)	Yes	NULL	This field contains the name of the officer in-charge of the case

## tbl\_complaints

Column	Type	Null	Default	Comments
cid	int(5)	No		This field contains the id of the complaint
reg_id	int(5)	No		this field is referenced from tbl_login
title	varchar(100)	No		this field contains the title of the complaint
description	varchar(200)	No		this field contains the description of the complaint
images	varchar(100)	Yes	NULL	this field contains the images related to a complaint
date	datetime	No	CURRENT_TIMESTAMP	this field contains the date of submission of the complaint
status	varchar(50)	No	0	this field contains the status of the complaint
case	int(5)	No	0	this field contains the value to refer if the complaint has been updated to a case
case_id	int(5)	Yes	NULL	this field is referenced from the table tbl_case

## tbl\_criminal

Column	Type	Null	Default	Comments
cri_id	int(5)	No		This field contains the id of the criminals
name	varchar(50)	No		this field contains the name of the criminal
age	int(5)	Yes	<i>NULL</i>	this field contains the age of the criminal
address	varchar(100)	Yes	<i>NULL</i>	this field contains the address of the criminal
phone	int(12)	Yes	<i>NULL</i>	this field contains the phone number of the criminal
dob	varchar(50)	Yes	<i>NULL</i>	this field contains the date of birth of the criminal

## tbl\_login

Column	Type	Null	Default	Comments
reg_id	int(5)	No		This field contains the registration id of te users
name	varchar(50)	No		This field contains the name of the user
email	varchar(50)	No		this field contains the email id of the user
phone	varchar(12)	No		this field contains the phone number of the use
password	varchar(50)	No		this field contains the password of the user

## tbl\_missing

Column	Type	Null	Default	Comments
miss_id	int(5)	No		This field contains the id of the missing person
name	varchar(50)	No		this field contains the name of the missing
age	int(3)	Yes	<i>NULL</i>	this field contains the age of the missing
address	varchar(100)	Yes	<i>NULL</i>	this field contains the address of the missing
phone	int(12)	Yes	<i>NULL</i>	this field contains the phone number of the missing
reg_id	int(5)	Yes	<i>NULL</i>	this field is referenced from the table tbl_login
